See more Jannyfly, June 17, 2008 17 2 Average Rating 5.0 out of 5 stars Great product, follow the directions. Very pleased with product. Bought 2 of these and built them fairly quickly over 4 day span. Took a little extra time with the first one following all the directions which were very easy to understand over a couple hours in the first three days. Second one was built in about 3.5 hours on day 4. Much easier to assemble the second time around knowing what I had learned from the first build. A couple recommendations to make this project an easier go have an assistant work with you, it will make the build easier when its time to gather parts to assemble and then putting it all together. Second, have a large flat surface like a counter or small desk to work from rather than building directly on the floor. Finally, though it is easier, using power tools, i.e. cordless screwdriver is not the best option. Use a little muscle to put all the screws in place. Youll be very pleased with the final results and it wont take much longer. Using the cordless screwdriver can torque the screws too much and strip out the holes, which will lead to frustration and disappointment when it doesnt all fit together properly. Read the instructions several times before attempting to assemble and then be ready to do a lot of screwing. Take your time and it goes together well. Looks great. You might want to have a small drill handy since a lot of the small holes on the drawers are not deep enough for the drawer rail screws and you can not force them in composite board. 0 out of 5 stars Excellent Desk This is a great quality desk for the price. It took a bit of time to put it together, but it was well worth the savings. The desk top was slightly damaged in the box. However, when I contacted the manufacturer, they immediately shipped me a replacement desk top. I also purchased the matching file cabinet and hutch. It really is a great looking set. See more CTRGuy, July 12, 2009 4 0 Average Rating 5.0 out of 5 stars Very Nice As others have written, it was a daunting task having to deal with so many screws and hardware. Despite the blisters from using a manual screwdriver, the end result was beyond my expectations. This is a beautiful piece of furniture. It took me a full day, but when the last drawer went in with ease, I stood back and smiled. It makes the room and I LOVE it. See more foofur2k, May 24, 2011 2 0 Average Rating 4.0 out of 5 stars Very good buy for cost Purchased for the office. Customer should have an option for having the product assembled prior to delivery. Cannot comment on durability at this time. Overall merchandise looks pretty expensive when put together. See more LCNTW, January 17, 2014 Verified purchaser 0 0 Average Rating 4.0 out of 5 stars Nice desk I put it together over 2 evenings, by myself. The directions say you need assistance but that is up to you. The only part of it that was difficult is the sore hand from turning all the screws. Take your time and its easy enough. And it seems very sturdy so far. See more dkfo, January 16, 2009 6 0 Average Rating 1.0 out of 5 stars A NIGHTMARE to create We have been trying three different times to put this together. eeekkkk I would gladly pay someone to finish putting it together. See more Sandra, December 5, 2015 Verified purchaser Written by a customer while visiting hayneedle.com 2 0 Average Rating 1.0 out of 5 stars Extremely Disappointed in Birmingham Collection We bought the executive desk, the file cabinet, and the bookcase. I must say, I was very disappointed. I will try to break it down quickly. When we received these products through shipping, the two main side pieces and a corner piece of the bookshelf were broken, and the top piece of the file cabinet was smashed at the corner. Had to call and wait for replacement pieces. Once desk was assembled, for some reason the keyboard drawer fell down as we were moving the desk into position in our office. When it fell, from less than 3 feet onto carpet, the keyboard drawer broke. None of the pieces have a great fit and finish because things just dont line up correctly and so things like drawers can look a bit uneven or slightly off. The veneer on the fake wood is almost paper thin so it is prone to scratches. Also, the finish reveals all sorts of hand smudges and such, so it is really difficult to keep clean. I could go on and on about how these products are cheap junk, but whats the point. Anyway, if you decide to purchase this I wish you better luck.
